

# Types of tourism

# Classification by the criterion of territory

*This classification is proposed by the United Nations World Tourism Organization (UNWTO).*

- **Domestic tourism** is trips made by residents of one country within that country. It leads to the redistribution of income between the regions of the country and the stimulation of the national economy.
- **Outbound tourism** is trips of residents of a country to another country (less attractive for the national economy because of the capital export).
- **Inbound tourism** is trips to a country carried out by its non-residents (leads to the inflow of foreign capital into the country and is a priority in the sphere of tourism for any country).

# Classification by the criterion of the trip purpose

- Informative (sightseeing) tourism
- Religious (pilgrimage) tourism
- Ecotourism
- Sports tourism
- Extreme (adventure) tourism
- Recreational tourism
