# Tactile book = "live" book = multisensory book

**Tactile book** is a book with colored relief patterns, appliqués, objects made of various materials, in general appearance and sensations as close as possible to the original.

In the world practice tactile books are divided into:

Didactic books

to help teaching

subject

thematic

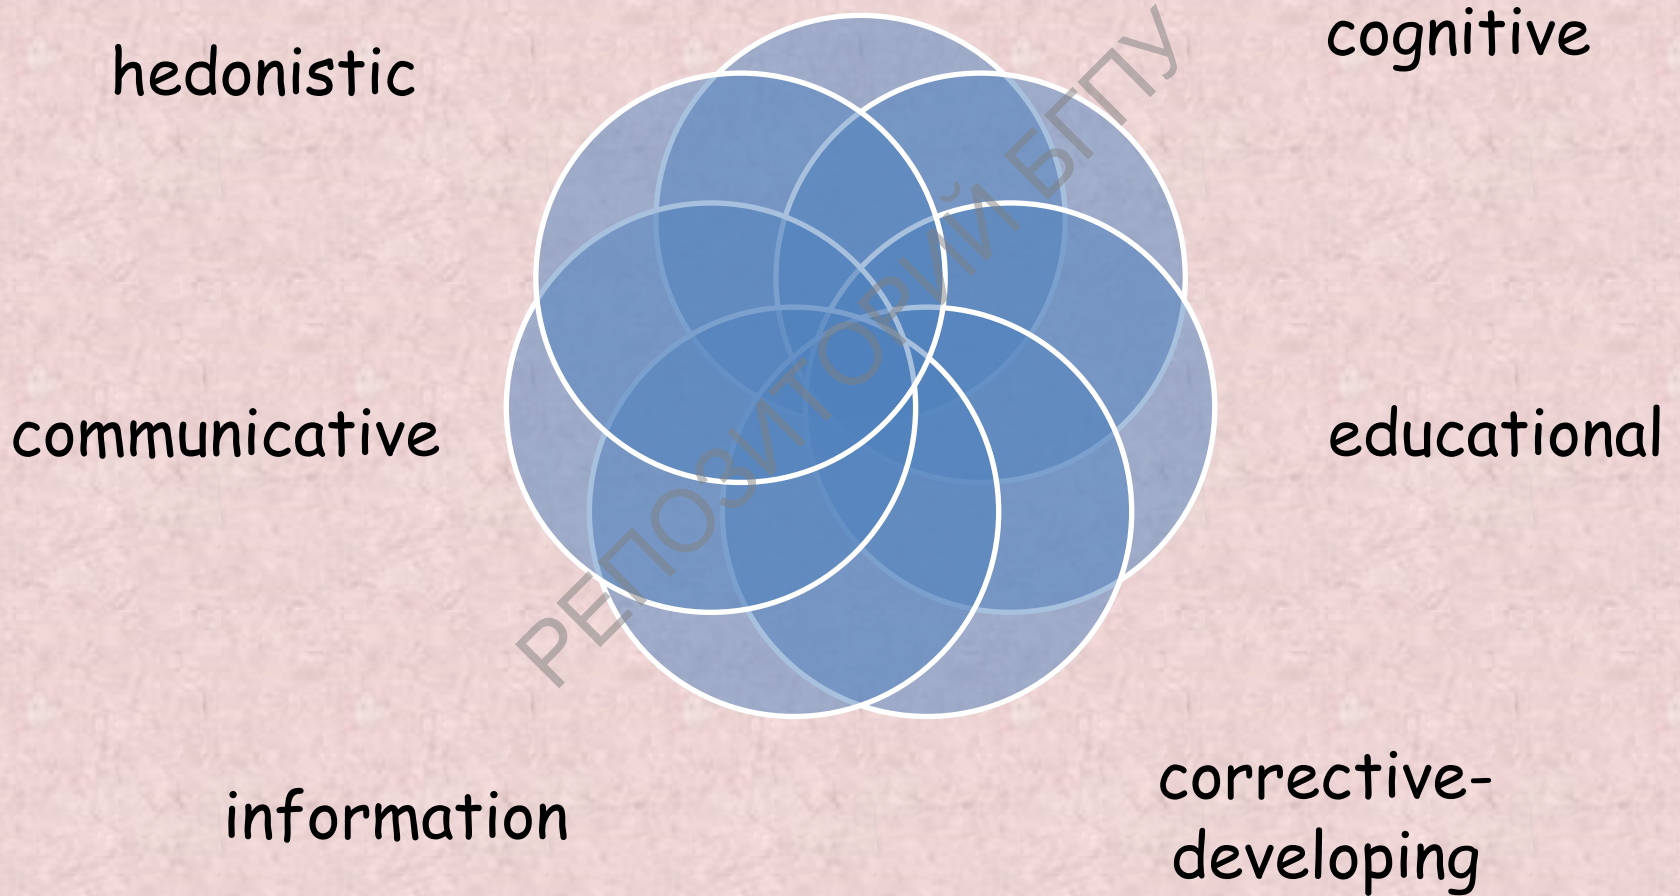

gaming

Associative books

fairy tale books

story books

# Functions of the book:

Зайку бросила хозяйка.  
Под дождем осталась зайка.  
Со скамейки слезть не смог,  
Весь до шпички промок.
