

**METHODS,
TECHNIQUES,
AND MEANS**

EDUCATION

OF STUDENTS

WITH INTELLECTUAL

DISABILITY

EDUCATION

is a process of pedagogical assistance for children in the formation of their subjectivity, cultural identification, socialization and life self-determination

CORRECTIONAL EDUCATION

is a specially organized pedagogical interaction that ensures activation of work-arounds for the appropriation of social experience

EDUCATIONAL METHOD

is a complex of the most common ways, techniques and related to them means of implementation of educational interactions

Pedagogical methods of education

- 1. Methods of formation and correction of personal consciousness.**
- 2. Methods of organization of activity and of formation of behavioral experience.**
- 3. Methods of stimulation of behavior and activity.**

By Y.K. Babansky

Psychological methods of education

1. The method of non-verbal impact (facial expressions, body language, etc.).

2. The method of emotional impact (indignation, empathy, etc.).

3. Method of rational impact (infusion).

Educational techniques

**are specific ways of
interaction between a
teacher and a student**

Means of education

are relatively independent sources of formation and development of personal sphere of an individual, which ensure the implementation of pedagogical techniques within the framework of a specific educational method
