#### THE LEARNING PROCESS OF USING THE APP

#### Stage 1

The child is required to learn a simple dependency: clicking on the icon of the object of interest leads to the receipt of the object.

It's best to start with one item and one icon.

#### Stage 2

The child must learn to use the tablet in space to consolidate the communicative action.

In this case, it is required that the parent be at a distance from the student, and the child, taking the tablet, approached the parent and asked for what he wants.

## Stage 3

The child learns to distinguish and select the necessary icons from several that he sees on the screen.

Composing a phrase from

several cards.

The application "Speak in Silence" contains such a function, and allows you to teach a child to compose phrases of three words by choosing icons for the line of voicing.

## **COMMUNICATOR FUNCTIONS**

- High-quality Russian and English voice acting.
- The ability to add your own words and voice them yourself.
- A large selection of pictures from the PECS series.
- Adding your own photos or pictures to words.
- The ability to send the typed sentence to the parent via SMS and iMessage.
- Removing unnecessary words.
- Selection of multiple display options and color schemes.
- Formation of a sentence from the most common words.
